PRE-DRESSING INSTRUCTIONS

You will need someone to assist you in putting on the costume. In order to stay as cool as possible, wear cotton shorts and a t-shirt under the costume.

Turn on the fan inside the head by pushing the black button. If it fails to work, replace all 8 AA batteries (see fan instructions).

The flower petal ships separately from the stem. To connect them, fit the stem onto the back of the flower. Insert the screw and tighten into the nut using a screwdriver. Fold the green "stem" material over to cover the connection.

- 4. Put on the gloves and pull them up your arms. Your assistant should hold the gloves while you push your hands into them.*
- 5. Have your assistant open the pod so you can step into it. Pull it up and zip it over the harness.*
- 6. Put your arms into the sleeves, pushing through the opening at the wrist.*
- 7. To remove the costume, reverse the directions.*

CLEANING INSTRUCTIONS

The pod, tights, and gloves may be machine washed in cold water on a gentle cycle using a mild detergent such as Woolite. Remove the plastic tubes before washing.

DO NOT PUT ANY PART OF THIS COSTUME IN THE DRYER.

The gown, shoes, and staff may be spot cleaned using a soft towel and water (no soap). Do not use any solvent cleaner-it will remove the paint.

NEVER PACK ANY PART OF THIS COSTUME WHILE WET OR DAMP. IT WILL MILDEW. MAKE SURE IT IS COMPLETELY DRY.
